

India

India sent the 2nd most international students to UGA in the Fall 2016 semester.

India also sends many international scholars to UGA. In the 2016-2017 academic year, approximately 77 scholars traveled from India to work and collaborate with UGA faculty.

UGA Education Abroad in India

During the 2016-2017 academic year, 8 UGA students traveled to India. Currently, UGA veterinary medicine students complete internships in Bombay and New Delhi.

Academic Collaboration and Exchange in India

Between 2007 and 2017, UGA faculty collaborated with colleagues in India to jointly publish 285 scholarly articles. Top areas of cooperation during this period included: Plant Sciences, Biochemistry and Molecular Biology, and Genetics and Heredity. Top collaborating institutions in India during this period included the International Crops Research Institute for the Semi-Arid-Tropics, the Council of Scientific and Industrial Research, and the Indian Institute of Technology.

Amrita Vishwa Vidyapeetham University Partnership

This partnership provides students with the opportunity to engage in study and service in live-in labs in rural Indian villages, in cooperation with Amrita University.

Banaras Hindu University Partnership

This partnership provides opportunity for faculty mobility, particularly in the areas of food products, functional foods and nutraceuticals, technologies for value-added food processing and packaging, and food safety. UGA faculty from the College of Agricultural and Environmental Sciences assist in curriculum development at Banaras Hindu University and collaborate with colleagues there to conduct USAID-funded research.

Sri Ramaswami Memorial University Partnership

Both UGA and Sri Ramaswami Memorial University have tremendous expertise in Biorefining, Bioenergy, Natural Resource Management, and Applied Genetic Technologies. Through this partnership, UGA Engineering faculty and faculty at Sri Ramaswami Memorial University share their expertise and develop new knowledge in these fields.

Takshila Education Partnership

Takshila Education is an organization that works to improve education in India and the United States. In a current project, Takshila Education is developing a kindergarten to secondary school in a rural area outside of New Delhi for children who lack other educational opportunities. UGA faculty undertake field research at this school where they focus on educational design and challenges in education in a rural environment and emerging economy. Plans are developing for UGA students to undertake study and research at the school site.
